Advanced SSRS

Classroom or online training course 2 day course outline

This course covers the following topics (any items marked with a * will be covered if time allows):

Revision of grouping

- · Creating grouped tables
- · Fixing page headers
- · Collapsing and expanding

Revision of expressions

- Calculated fields
- · Using the expression builder
- · Conditional formatting

Advanced expressions

- · Understanding scope
- Using RowNumber
- · Running totals

Variables

- · How variables work
- · Report variables
- Group variables

Embedding code

- · Setting code for a report
- · Calling functions in expressions
- Better ways to write code

Using SQL views

- · Why views are a good idea
- · Designing views
- · Scripting views
- Creating virtual tables

Revision of parameters

- · Configuring parameters
- · Referencing parameters
- · Dealing with no rows
- · Default and null values
- Dropdown parameters

Stored procedures in SSRS

- Pros and cons of stored procedures
- · Server Explorer vs SSMS
- · Creating and editing procedures
- · Using for reports

Stored procedure parameters

- · Creating report parameters
- · Refreshing fields
- Default and null values

Dropdowns with procedures

- The stored procedures needed
- · Cascading dropdowns
- Replacing SELECT A VALUE

Multivalue parameter procedures

- · Splitting the choices made in SQL
- · Displaying the chosen data
- Restricting the number of choices

Improving report navigation

- · Document maps
- Using bookmarks
- Setting tooltips

Dynamic reports

- · Dynamic datasets
- · Dynamic grouping
- · Dynamic matrices

Maximum 6 people per course. Scheduled classroom courses include lunch at a local restaurant; you can see how our online training works here. For more information, see https://www.wiseowl.co.uk/.
